

Welcome

Trinity Christian School Welcomes you to our Early Childhood Education program. We offer excellent and varied programs designed to meet the needs of your family.

Our classrooms are designed for children to grow and learn in a clean, safe, creative and caring environment.

We are staffed with qualified and dedicated teachers selected for their love of children and the Lord, as well as their commitment to providing educational opportunities that support the best principles of child development.

Wee Care

At Trinity Christian school, our academic programs are based on the developmental needs of each age level. For that reason our academic programs for 3, 4 and young 5 year old children are designed to be half day programs.

We also understand the needs of families for childcare where many moms and dads work full time. TCS has developed the Wee Care program to meet those important child care needs.

Students attending our preschool classes can be enrolled in our Wee Care program which provides flexible child care coverage for the preschool student. Any student enrolled in the preschool program is eligible to attend Wee Care on any day of the week.

Wee Care is a program designed to meet the individual extended care needs of the preschool student with a focus of fitness and nutrition.

The heart of education is the education of the heart.

- Spanish is taught weekly.
- Fine motor skills and large motor skills are developed through art, manipulatives and gym activities

Spiritual Development

Our Early Childhood staff share Christ's words and love as they care for each child. Teachers model Jesus and teach His Truth through planned Bible lessons, and relationships with the children. We educate the hearts as well as the minds of our children as they are immersed in a Culture of Grace.

Special Events

- Barn Dance
