

September 28, 2020 Trinity Christian School 1st Grade Updates

Greetings, Parents of Trinity's 1st Graders,

Recess has been outside; we're thankful for the sunny days.

We have invited second grade for a fun game in the gym later this afternoon. Photo day Tuesday.

We do Not have the PTFA Meeting this week. It's being rescheduled.

Line: The math homework number line sent home can be kept at home for future math work.

We rotate the discovery centers each week. The students like to relax under their tables during center time. A good stretch in our special space feels good.

Notes:

Fall is almost here! We are seeing the season change in our outdoor time. We also have a great view of the woods.

Craft: The students made a foam craft this week. They were proud of their creations.

Wardrobe: There have been some questions circulating about student TCS dress code. I printed off the dress code page for all of us so that we can check on the requirements.

There is a fabulous free clothing borrowing center by the TCS office. Do help yourself.

Let me know if I can be of any assistance.

Thank you for your support.

Cognitive skills can be gained through sensory activities.

The students are matching, arranging, and showing teddy bear grahams on a sort sheet.

School photos - September 22nd. Students wear school uniforms.
I will double check collars, hair etc.

Science: We released a beautiful butterfly on Monday!
We observed its development from a caterpillar.

Weather: Thank you for sending in a light jacket, sweatshirt or sweater.
Mornings have been cooler.

Reading group: Xerox copies books go home most days.
Have your child read the story to you. Keep.

Wet wipes (gentle) : Thank you or sending in an individual pack for your child.
They come in very handy.

Community: The students are having a great time together. They are a delightful
group of personalities!

Questions to ask your child:

Bible: Who was the father that was promised many children?

Reading: What do apostrophes mean? Look for it in home reading.

Writing: Ask what *their* very hungry caterpillar ate in their re-write.

Math: Can you count to 100 by 5s? Show me. While riding in the car (etc.)
families can practice.

Science: What 3 things classifies a mammal?
Have a great weekend! Enjoy the last of summer.

God's special blessings,
AnnMarie
