

Mrs. Acosta's 3rd & 4th Grade News

March 18

We are still working through the time change. It is nice to see it light later into the evening. This Sunday the season of spring begins! Thank you, God!

The students had their unit Bible and memory verse test. Our new Bible verse for the new unit is; **“And we know that for those who love God all things work together for good, for those who are called according to His purpose”** Romans 8:28. We read the account from 1 Samuel 20 about *Jonathan* and *David*. Ask your child to tell you about it.

During math the third graders are finishing up another chapter. We will learn to multiply numbers 6 through 10.

The third graders had a benchmark assessment in reading. We reviewed adverbs and worked on how to use a glossary. The third and fourth graders sponge painted a shamrock and wrote letters to their first grade buddies.

In science the students are writing information about each of the planets. We will put them together to make a book of the planets. We, also, used foam containers to put the planets in order from the sun. During social studies we read about the early people who lived in New Hampshire. We learned about the Abenaki. The students looked at arrowheads found in our area. The arrowheads were donated to our school by Harriet Beckwith.

This time of year and the changing temperatures, please make sure your child has a jacket to wear outside at recess.

In His Service,
Debbie Acosta
